Welcome to the Peloponnese.
It is a great pleasure to welcome athletes, organizers and visitors to the Peloponnese for the UCI Gran Fondo.

Throughout the course, **participants must comply with the safety instructions and instructions of the Commissaires, race personnel (Police, civil protection, safety Motorbike Marshals, volunteers, etc.).** The safety arrangements for the race end when the finish line is crossed. QUALIFICATION THROUGH THE UCI GRAN FONDO WORLD SERIES

Each UCI Gran Fondo World Series event confers qualification rights for the UCI Gran Fondo World Championships. **The top 25% of athletes in their age group qualify for the UCI Gran Fondo World Championships.** This 25% is calculated based on the number of starts in each age group, not the number of riders crossing the finish line. In addition, the top three riders in each official age group qualify automatically for the World Championships, regardless of the number of starts in that age group. Riders must finish the race to qualify. A rider's age group is calculated based on his age on 31 December of the year of the 2026 UCI Gran Fondo World Championships.

The main award in the UCI Gran Fondo series is the right to compete in the UCI Gran Fondo World Championships, where top age-group finishers win the UCI rainbow jersey. Qualification is granted to the top 25% of riders in each age category at the various UCI Gran Fondo World Series events, with automatic

qualification for the top three in each age group. The Rainbow Jersey and World Championship UCI Gran Fondo World Championships: This is the ultimate goal of the series, serving as the World Championship for amateur and master cyclists. Automatic Qualification: The top three riders in any age group qualify automatically, regardless of how many riders are in that specific group.

Age Groupings:
A rider's age group is determined by their age on December 31st of the year of the World Championships.
